ourselves.
ourselves? yes
i am you are
we are
all that we need to be
and yes
we will grow
and change
but always will be
ourselves.

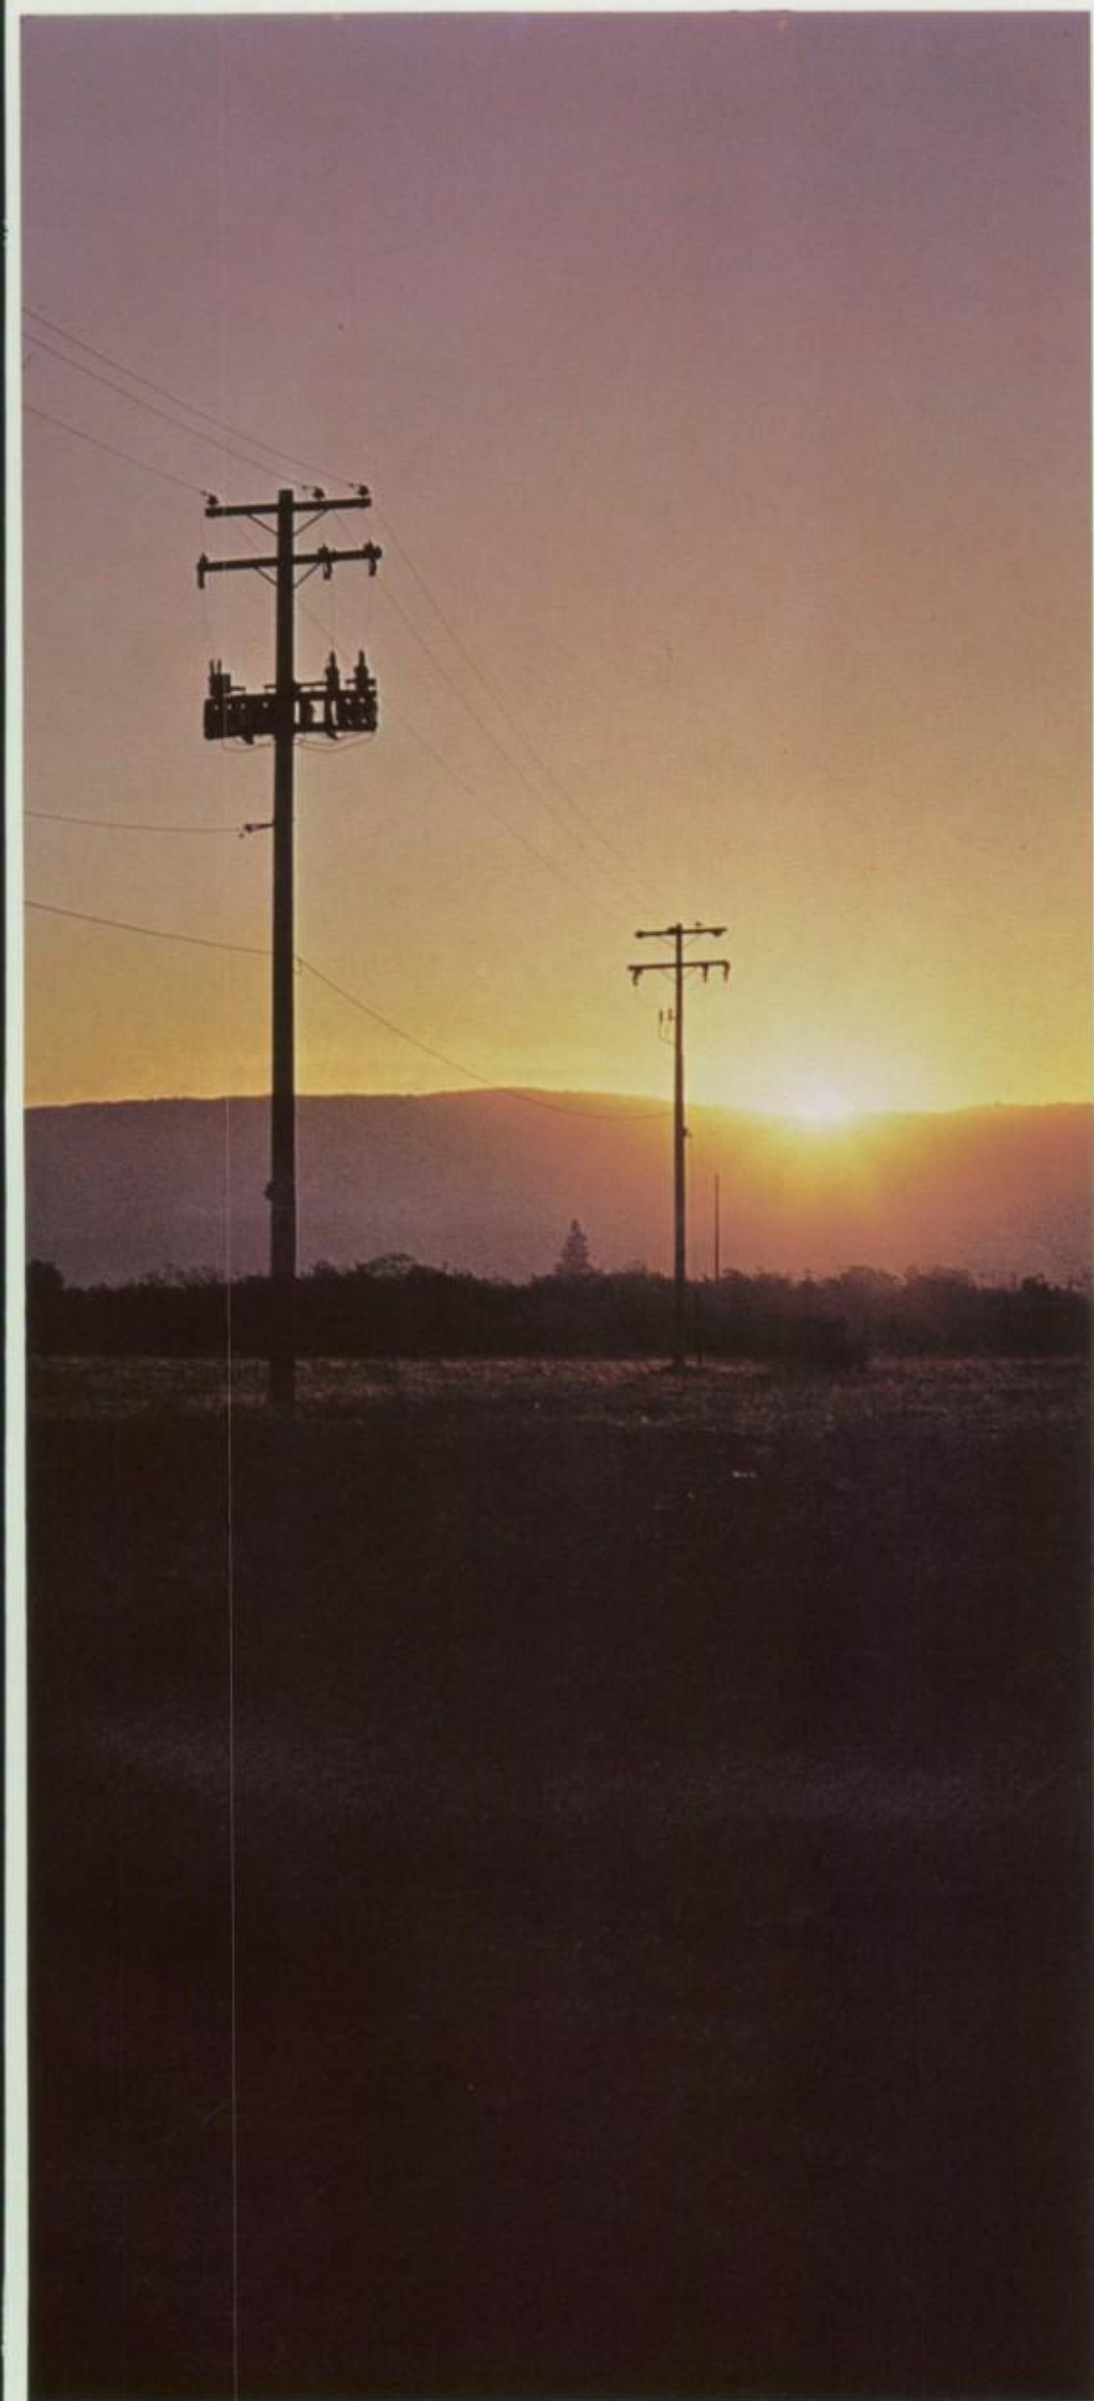

*we are just beginning
to realize ourselves
to know the limitless
boundaries
of our muscles and minds
to let ourselves be*

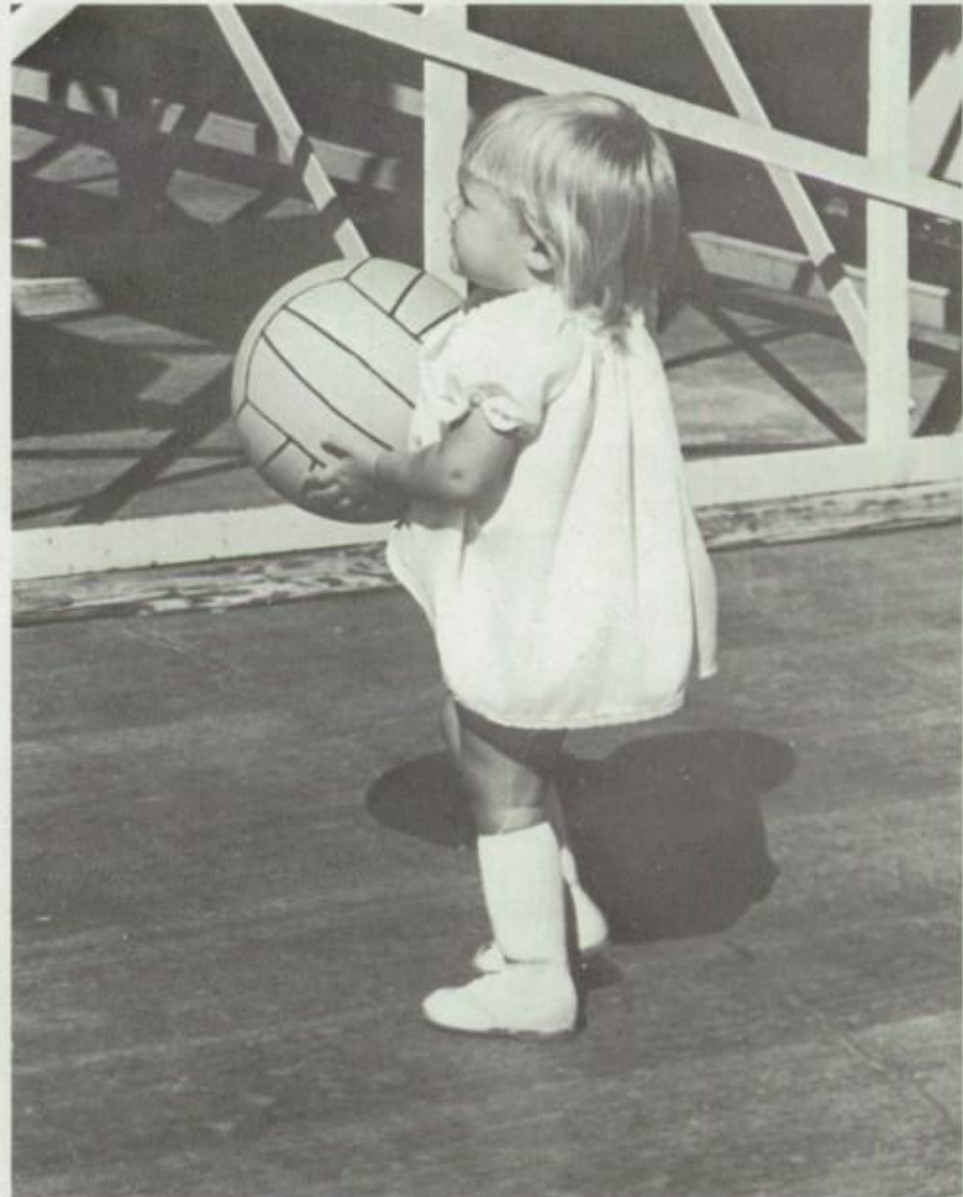

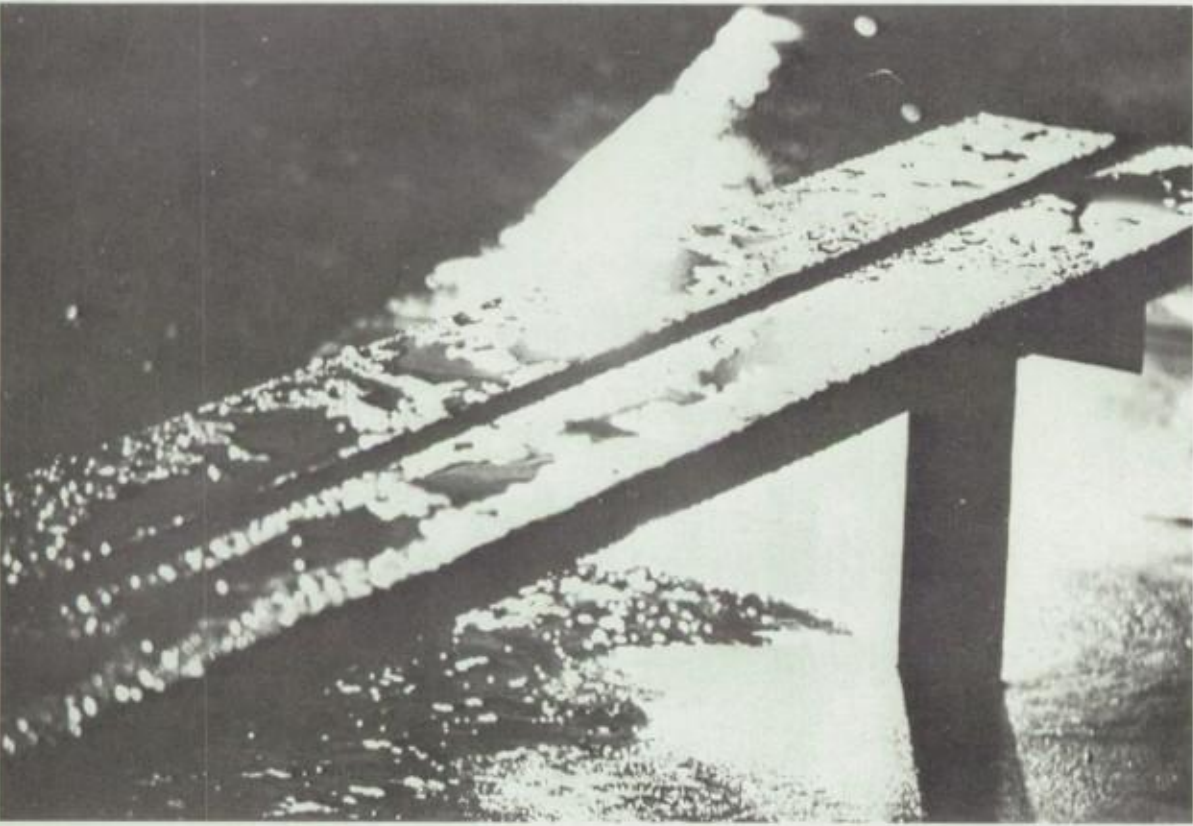

*there is, within our being,
a need
to feel the greenly
growing spirit of
nature
to destroy any part of it
is to destroy a part
of our whole*

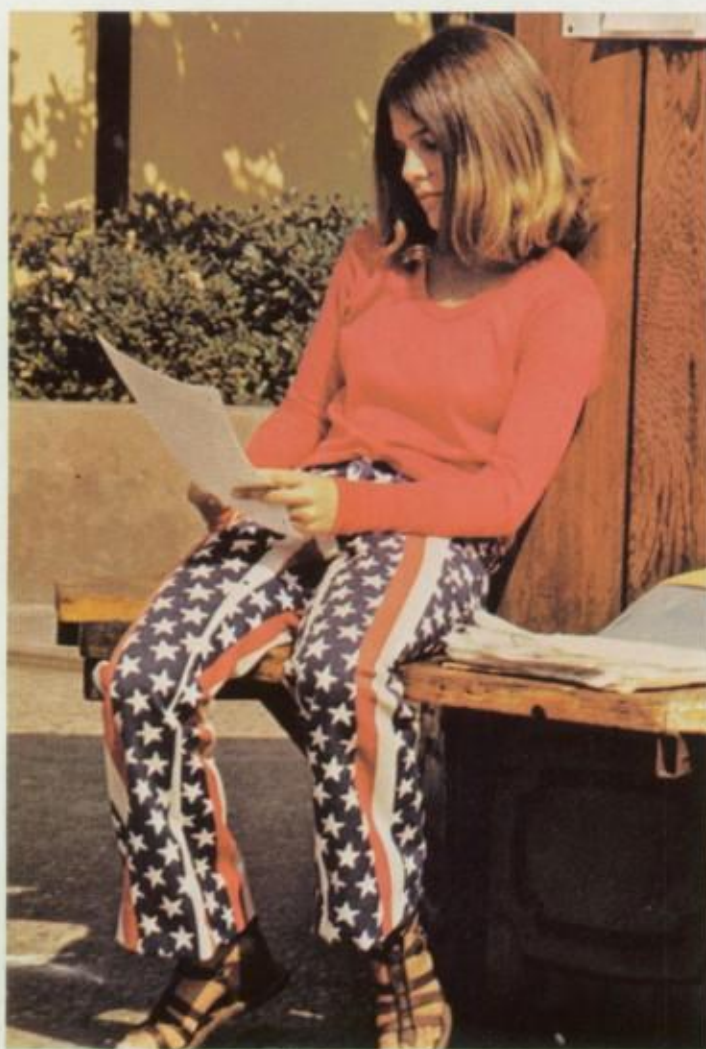

*outside this place
there is another world
alien to much
of what we know
how can we speak with it?

first, we must have
something to say...*

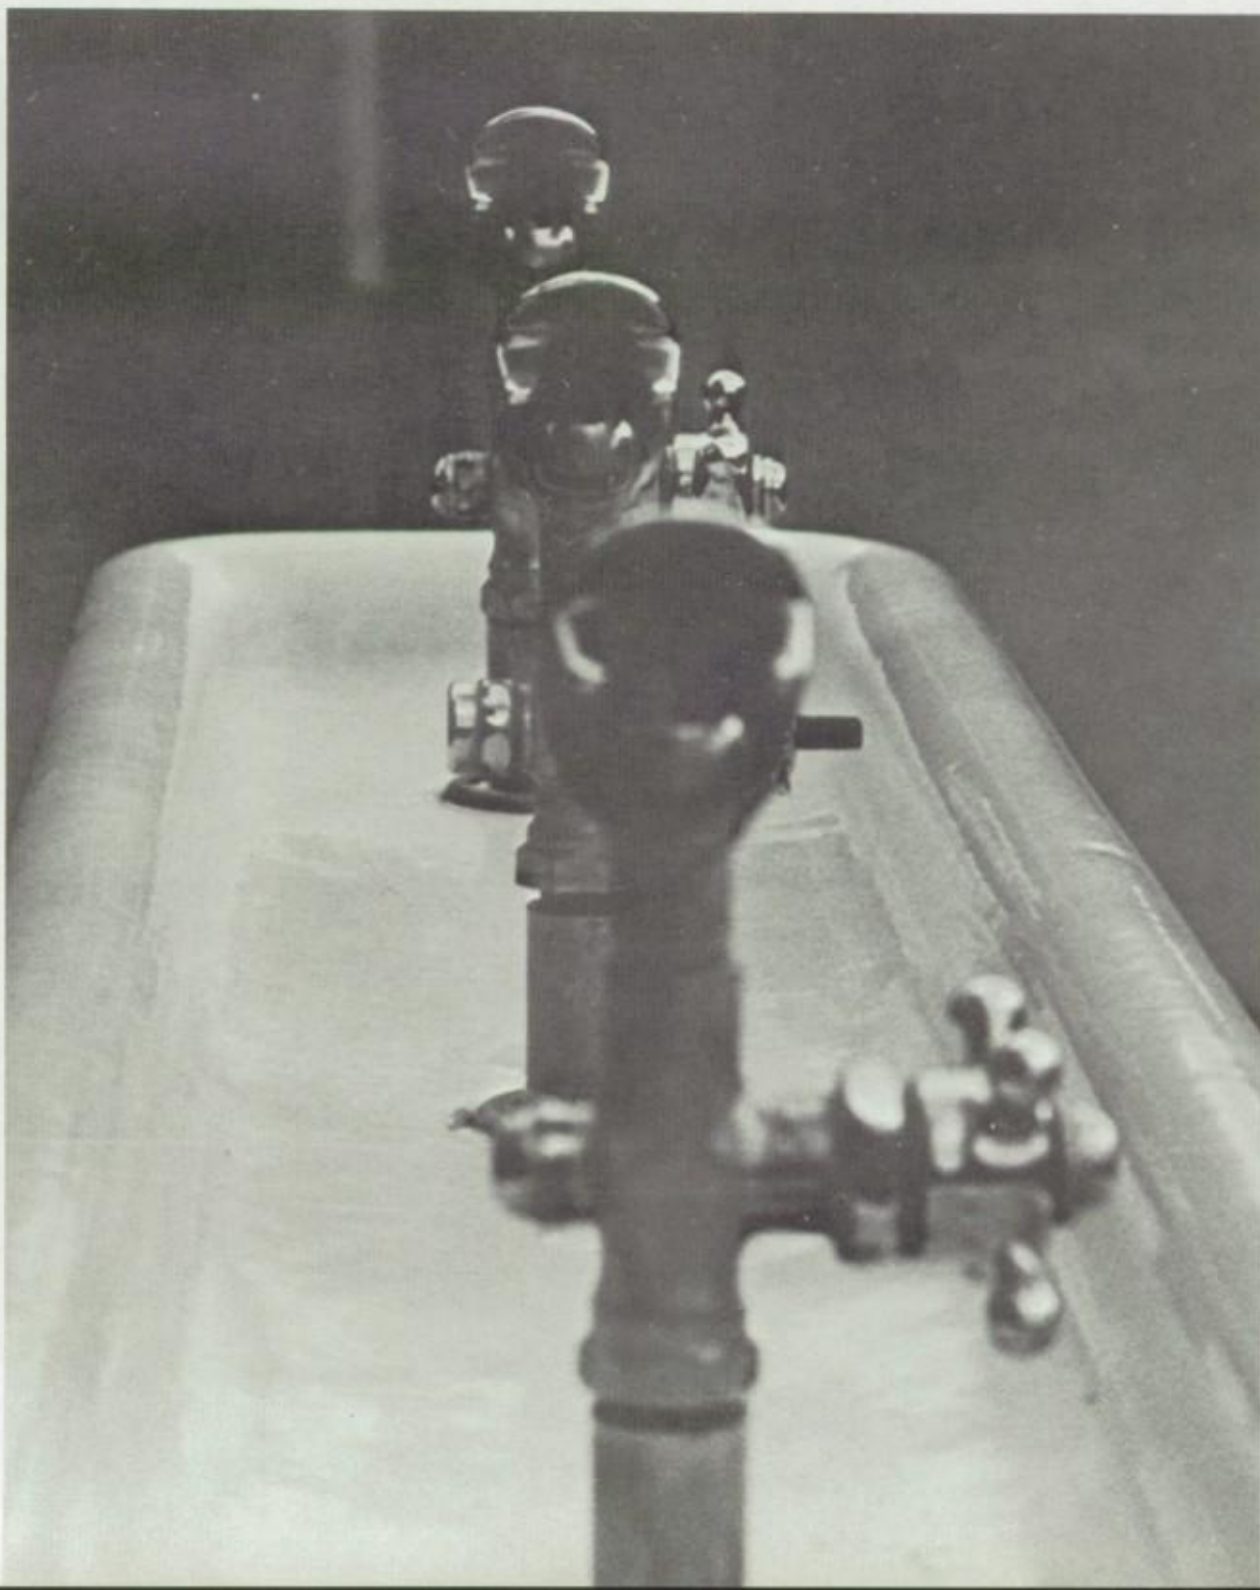

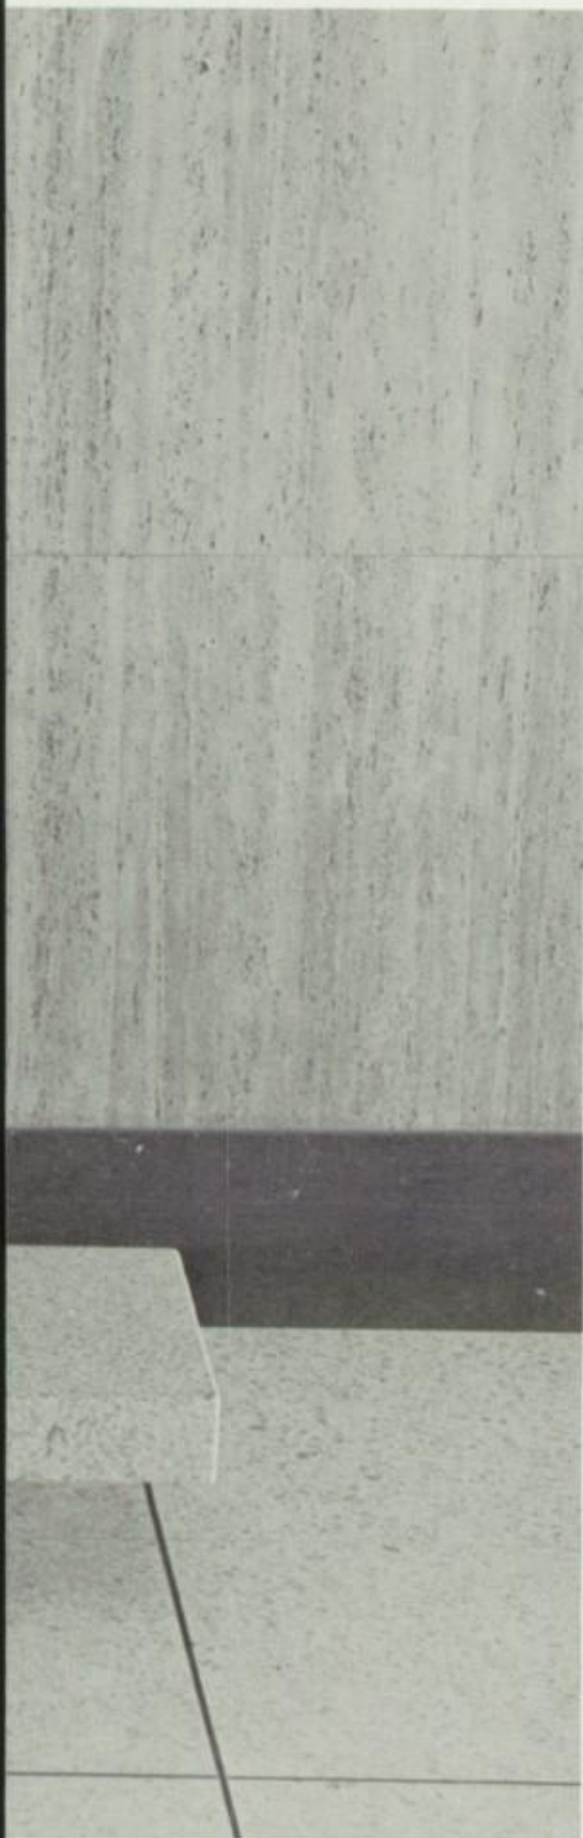

*masses of people and ideas surround us
vague
and shapeless
and yet, a few solid thoughts
can create an order in the void*

*and yet, these are only words
violent
tender
full of meaning
and yet, somehow
incomplete*

*i am and you are
but only as a
beginning
time and experience are
happening to us
our beings
the earth
the solid thoughts
the questions*

*how much can i tell you
about the world
and how to live
these are only finite
expressions
of the puzzle in my mind
really nothing more
than broad characters
scrawled across a page...*

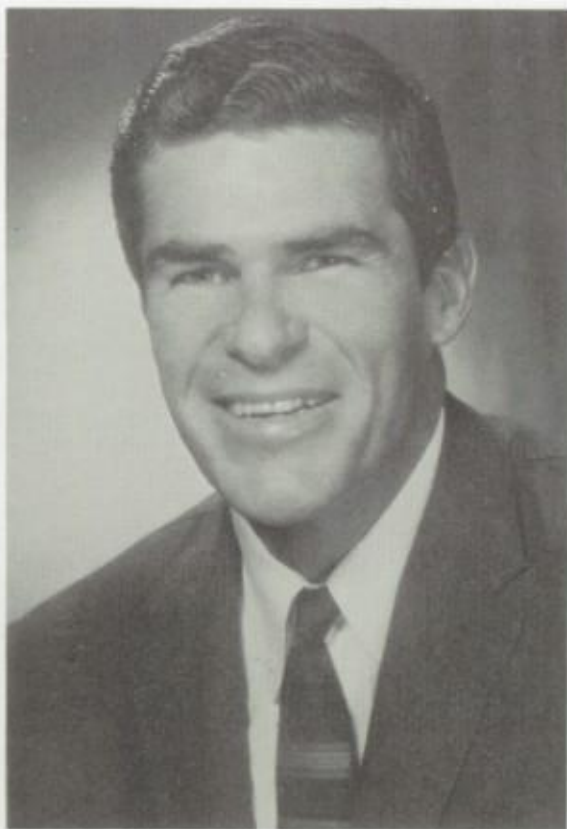

*do you understand?
make real the poet's dream
and begin
the rest of your life with
the ending of these words...*

the school year of 1970-71 was a banner year for cupertino high school. our nationally ranked pioneer band performed for the president of the united states; marched in the tournament of roses parade at pasadena on january 1; and was featured on international television. this yearbook will summarize the many successes our school has achieved during the year. the memories and accomplishments are your to cherish for your lifetime, and with the knowledge that school is not preparation for life but life itself.

the california scholarship federation honors those students who have achieved excellence in the classroom. membership is based upon the grade point average, with consideration given to the number and difficulty of classes taken. this year the federation will try to pay the fees for the advanced placement exams taken by many of its members. the club also holds an annual field trip to san francisco in the spring.

life members are those students who have met csf's requirements four out of their last six semesters, one of which has to be in their senior year. these seniors are recognized for their outstanding achievements by wearing red tassels on their caps at graduation.

one of our two foreign exchange students from brazil was decio patelli, jr. during his stay in the united states he stayed with frank ragsdale. decio's favorite classes at cupertino were woodshop with mr. eckman and humanities with miss ybarra. he was surprised at having to change classes and to another teacher, because in brazil the teacher changes classes. decio enjoys the climate and food here, but says he can't understand why we drink such weak coffee.

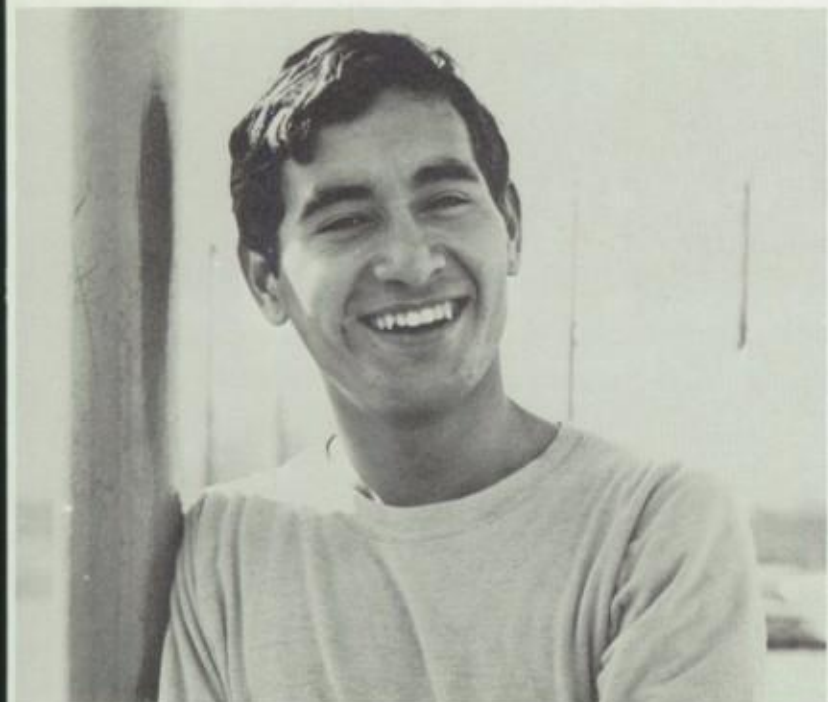

elizabeth reese is also a foreign exchange student this year, coming across the atlantic from england. among her many activities here, she is a member of the gymnastics team. living with her cousin, robin smith, she was unavailable for the yearbook picture.

our other student from brazil was jaivo t. hidal. he says he likes all the friendly people and our selection of classes. at his school in brazil, they run on two shifts, one from 7:30-12:00, and the other from 1:00-5:30, and can only take the very basic classes with no extras. jaivo wants to be a doctor and after he graduates he'll come back to the united states to get his phd. while visiting here, jaivo lived with jackie mcrae.

kerstin audernon came to california from ostersevid, sweden. during her stay in america she lived with merrylee rae's family. she said she really enjoyed her year here although she was surprised at the many rules there are to follow at school. what she likes most about california is the beach, but she doesn't think she would trade the clean swedish winters for anything. when kerstin goes home, she will finish her education and become a doctor.

attending cupertino this year is jaime gonzalez, a student from copiapo, chile. jaime finds that he is impressed with the many conveniences which american life provides, save for the food from the cafeteria. although he states that youth here tend to lack in politeness, he likes americans. presently living with lynne mcghie, jaime plans to major in political science at the university of chile, in santiago.

class of '72

this year the class of "72" began its life as upperclassmen. our fine athletic teams were victorious as they have been since our class began, and our spirit remained "sky high."

the class of "72" presented to the seniors our junior prom, de ja vu, and after a very slow beginning, and weeks of torment, it turned out to be a great success.

the class of "72" has completed its third happy chapter for its four part stay at cupertino high school. stay tuned for part four.

the spirit of '72 lives!

we're on our way...

the class of 1973 entered its second year at chs with high spirits and new expectations for the coming year. the sophomore class again proved to excell in leadership, fund raising events and scholastic achievement. during the year, sophomores enjoyed many activities including their 2nd annual carnation sale, a fun night, a beach trip, and the last dance of the year.

experienced leadership from our presidents scott franey, and tom shakely and all of our fine officers, has been the key to our continued success.

fall officers: diane cook, roman bednar, patty abe. row 2: scott franey, val silva, keven tompkins.

spring officers: claudia van dyke, roman bednar, scott franey, torina bjelde. row 2: sally dunn, nancy russell.

bench: t. moore (social chairman), mr. cuneo, l. martin (treasurer), wall: c. courts (rally comm), k. murphy (secretary), t. barnes (spirit comm), m. lopresto (president), p. batza (publicity), a. grayson (sergeant-at-arms).

the class of '74

after a slow start, the freshman class began to get organized and feel more at ease with the help of their advisor, mr. cuneo, and their full year officers. the freshmen sold discount theater tickets to raise money, and this will become an annual project for them.

in sports the freshmen didn't break many records, but with a little more coaching, they will fill our outstanding teams that keep cupertino #1.

always hard at work, mr. cuneo, attempts to bring across a point to an interested student.
